Update from Glen Shingu.

Gypsum Cemetery on Irvine City Council Agenda May 28th

About the OC Veterans Cemetery

Follow-up to the Irvine Great Park Committee meeting on Tuesday afternoon; it was almost entirely about the Gypsum Canyon Technical Review and Feasibility Assessment (PDF) of the Veterans Cemetery site that was requested by Vice Chairman Larry Agran. A point that Director Tammy Kim brought up was that the Review/Assessment was not preapproved by the Board.

Many citizens spoke at the meeting with very compelling stories, especially about the ARDA vs Gypsum Canyon sites and their funding statuses, nothing about the Strawberry Fields site. The long-term budget/approval and funding sources were high topics. Bobby McDonald and Nick Berardino from VALOR spoke. Two long term American Legion members spoke, they were on diametrically opposed sides. Some spoke not about the cemetery, but what is already planned/approved to occupy on the ARDA site.

Speakers covered four main points:

- 1) The cemetery should be at the ARDA site on the former MCAS El Toro grounds, as it has funding but will expire if not used.
- 2) The cemetery should continue its progress at the Gypsum Canyon site, not the ARDA site, as it has funding/backing from OC and all of its cities.
- 3) The ARDA site was already approved to build and house several new venues other than the Cemetery.
- 4) Question about what was the cost of the Review/Assessment, and for budget documentation approving it (it wasn't)?

If you wish to follow the Great Park Board Meetings, by Live TV or Zoom and more, a link to the webpage is below. The next meeting is June 28th.

<https://www.cityofirvine.org/great-park/great-park-board-meetings>

Original Email

I was asked to attend Irvine's City Council meeting again. It is about the Veterans Cemetery positioned in Anaheim. Larry Again put it on Irvine's formal agenda.

If Irvine's Strawberry Fields site was accepted over Larry Angry's contaminated ARDA Irvine site, the Veterans Cemetery project would've broken ground in Irvine long ago. But instead, Irvine lost its bid due to delays caused by internal political no-compromise that inevitably created increasing costs. Although progress and funding for developing Anaheim's Gypsum Canyon site continue, a very small party still seeks to delay or block it.

MIA Update: See website

<https://dpaa-mil.sites.crmforce.mil/dpaaRecentlyAccountedFor>

Claim Shark companies have made statements that they aren't breaking the law because they don't charge fees for "preparing" veterans' claims. Claim Sharks state that they "assist" or "consult" for veterans' claims, and this how they rationalize why they should be allowed to charge thousands of dollars for their services.

This is still illegal. Using creative semantics to skirt the law is not innovative, and it is not honest or transparent.

There are no "good actors" or "bad actors". Every company that charges for initial claims assistance is doing it illegally.

Claim Sharks say veterans should have the "choice" to be fleeced out of thousands of dollars. No matter how much money these companies spend on Capitol Hill, We will not allow them to dismantle consumer protections and normalize harming veterans.

VETERANS, GET ON THIS TODAY:

DON'T MISS OUT ON WHAT BENEFITS ARE

AVAILABLE TO YOU.

"You can only blame yourself if you are

not receiving the VA benefits you rate"

**The VA will only give you what you ask for,
So ask for every injury you know you received in service,
remember most injuries get worse over time for most of us
aging veterans**

(Yes, We know a Few of you are Extremally healthy)

You can do this yourself Online,

Just need to create a VA.Gov account if you have not already done so.
