

Team Agran's Attack on Vet Cemetery Thrown Out of Court

For the second time Team Agran's court case against the Gypsum Canyon Veterans Cemetery was dismissed. This constant attack against on the Veteran Community, Gold Star Families and first responders was once again defeated !!

In the face of total and unequivocal support from every elected official in Orange County (Congress, Legislature, Board of Supervisors, City Councils) and now being rebuffed by the Superior Court twice...will this bitter politician and his followers stop ? The answer is simple " Who knows "??

However we have not missed a beat!! During this entire Court Battle our wonderful allies(Cal-Vet, County of Orange, City of Anaheim and the Cemetery District) have continued working tirelessly on the project. In fact, in a matter of weeks the final "conforming" construction plans will be submitted to the VA. After final approvals shovels should hit the ground.

It is possible that the Agran team may try to once again weaponize the CEQA process and try to slow things down. Could someone act in such a disgusting and disrespectful manner given everything discussed above? Well we aren't waiting around to see. Assemblywoman Sharon Quirk Silva has introduced legislation AB 571 to stop Agran's continued weaponization of CEQA and abuse of the Veteran Community. BTW every Orange County Assemblymember In addition to two Orange County Senators have co-authored the legislation. More to come about this.
